

Career Objective

Looking forward to a challenging career in an organization where I can sharpen my professional skills and experience and work at a position in quality control department where my ability for innovative decision making could be tapped.

Education

Bachelor Of Pharmacy

Noida Institute Of Engineering & Technology

Aug, 2018 to Aug, 2022

Secondary School

Noida Public Sr. Sec. School

Apr, 2017 to May, 2018

High School

Noida Public Sr. Sec. School

Apr, 2015 to Apr, 2016

Experience

Pharmacist Trainee

Vinayak Hospital, Noida

As a part of University curriculum I did one month hospital training in Vinayak Hospital, Noida where I learned first aid guidelines and handling , prescription-handling, dispensing medicine, counseling patients during discharge period, inventory - making, etc.

Projects

Formulation Development And Evaluation Of Sustained Release Ibuprofen Matrix Tablets

The study has revealed that by increasing concentration of polymer, release rate of drug was retarded and results confirmed that the release rate from hydrophilic matrix tablets depends on type and concentration of polymer. In present studies, matrix formulation containing HPMC and EC is probably showing release upto 10 hrs.

Implementation Of Pharmacovigilance In India

main objective of the study was:

To learn about the pharmacovigilance program in India.

Assess pharmacovigilance activities – at the global (national), regional and health-care facility level.

To see the impact of pharmacovigilance program in India.

To describe the scientific characteristics of pharmacovigilance.

To analyse the relationship between the growth of pharmacovigilance awareness and ADR.
